

**FORSYS**  
*Forward Thinking***+ NETSUITE** for ERP

# Connecting People and Processes for Optimal Productivity

Capitalize on the advantages of the most popular solution, ERP, with Forsys' end-to-end services to automate financial processes, gain inventory visibility, and manage flawless orders to grab new business opportunities.

## Overview

ERP is increasingly becoming critical for organizations to improve business processes, streamline order workflow, eliminate bottlenecks, ensure smooth flow of inventory, and generate timely invoice for fast payment.

[Forsys](#), an implementation partner of NetSuite, offers a whole scale of services to deliver seamless ERP projects in Manufacturing, Hi-Tech, Healthcare, Finance, and other industries. Our team of professionals use strategic approaches and in-house solutions to facilitate ERP implementation.

Our services include assessment and advisory services for selecting the right-sized ERP solution, implementation roadmap, managed services, and more to help organizations:

- 01 Automate Business Processes
- 02 Access Centralized Data in Real-time (using dashboards)
- 03 Accelerate Financial Close
- 04 Plan & Organize Inventory
- 05 Improve Operational Awareness
- 06 Enhanced Data Security
